01 THE OPPORTUNITY

Your expertise deserves a bigger digital presence

Strategy, creative production, web development, content systems and marketing — under one partner.

Quantum Climb helps healthcare professionals turn medical expertise, services, products and education into clear, credible and accessible digital experiences. From a doctor's professional identity to a clinic's patient journey, a healthcare product's online store or an international patient acquisition platform, QC designs and builds the digital foundations that support sustainable growth.

BUILD YOUR PRESENCE

Professional websites, doctor profiles, speciality pages and search visibility.

GROW YOUR AUDIENCE

Content strategy, social campaigns, AI-assisted video and multilingual reach.

CONNECT YOUR JOURNEY

Appointment enquiries, CRM integration, automation and patient information portals.

SCALE YOUR OFFERING

E-commerce, online learning, subscriptions and distributor platforms.

ONE PARTNER. CONNECTED DIGITAL CAPABILITIES.

Support for individual projects, or services combined into an integrated programme — with scope tailored to the organisation, audience, markets and regulatory requirements.

INSIDE THIS CATALOGUE

02	Doctor & Specialist Branding	03
03	Clinic & Speciality Centre Growth	04
04	Healthcare Products & Commerce	05
05	Medical Education & Knowledge Platforms	06
06	International Patient Engagement	07
07	AI-Powered Content & Digital Marketing	08
08	Technology, Integrations & Responsible Delivery	09
09	How We Can Work Together	10
10	Contact & Offices	11

02 DOCTOR & SPECIALIST BRANDING

Build a trusted professional identity

Help patients, peers and professional audiences understand who you are and how to engage with your practice.

WHAT QC CAN OFFER

Personal doctor branding
01

Positioning, professional profile, visual direction and digital identity.

Professional website
02

Biography, qualifications, speciality areas, clinic details, FAQs and contact pathways.

International SEO
03

Search-friendly structure and content to improve discoverability in selected markets.

YouTube education channel
04

Channel setup, content planning, episode formats and video publishing support.

Social media content
05

Instagram, Facebook and LinkedIn calendars, creative assets and campaign support.

AI-assisted video production
06

Doctor introductions, educational explainers, short-form clips and campaign videos.

Multilingual dubbing & lip-sync
07

Adapt approved video content for selected language audiences.

Appointment & consultation enquiries
08

Enquiry forms, booking pathways and contact integrations, subject to local rules.

Knowledge & article CMS
09

Publish professional articles, updates, educational resources and approved insights.

Ongoing content support
10

Refresh profiles, publish new insights and keep every channel consistent over time.

POSSIBLE OUTCOME

A consistent professional presence that makes it easier for people to discover a doctor, understand their area of practice and take the next appropriate step. Digital visibility does not guarantee patient numbers or clinical outcomes.

03 CLINIC & SPECIALITY CENTRE GROWTH

Create a better digital front door for your clinic

A clear, accessible way for prospective patients to explore services, learn about the care pathway and get in touch.

A CONNECTED CLINIC WEBSITE & CMS

Responsive clinic website 01
Design and development that works across desktop and mobile.

Doctor & specialist profiles 02
Service pages and facility information in one consistent structure.

Treatment information portals 03
Speciality content with review and approval workflows.

Appointment requests 04
Request forms and booking integrations where available.

Enquiry routing & CRM 05
Patient enquiry routing, contact management and CRM integration.

WhatsApp automation 06
Enquiry automation and approved follow-up workflows.

Local SEO 07
Search optimisation and location-specific landing pages.

Social & paid media 08
Social content, campaign creative and paid media support.

Analytics dashboards 09
Monitor traffic, enquiries and campaign performance.

EXAMPLE DIGITAL JOURNEY

1 **DISCOVER**
Search, social media or referral

→

2 **EXPLORE**
Clinic, doctor and service pages

→

3 **ENQUIRE**
Form, phone or messaging

→

4 **FOLLOW UP**
Clinic team or CRM workflow

CLINICAL RESPONSIBILITY

The clinic remains responsible for clinical decisions, patient care and the accuracy of medical information. QC supports the digital experience and marketing infrastructure.

04 HEALTHCARE PRODUCTS & COMMERCE

Take healthcare products to digital markets

For doctor-founded brands, manufacturers and approved product businesses seeking a stronger route to market.

QC SERVICES

Product branding & website
01

Brand positioning, product storytelling, web design and product information architecture.

E-commerce CMS
02

Product catalogues, shopping flows, inventory or fulfilment integrations and content management.

Product videos & advertisements
03

Explainers, campaign videos, short-form creative and AI-assisted production.

International search visibility
04

Technical SEO foundations and market-specific content planning.

Social media campaigns
05

Channel strategy, creative development, publishing and campaign management.

Distributor & reseller portals
06

Product libraries, enquiry forms, partner resources and account access.

Lead generation & CRM
07

Capture, route and track enquiries from customers, clinics or distributors.

Product education content
08

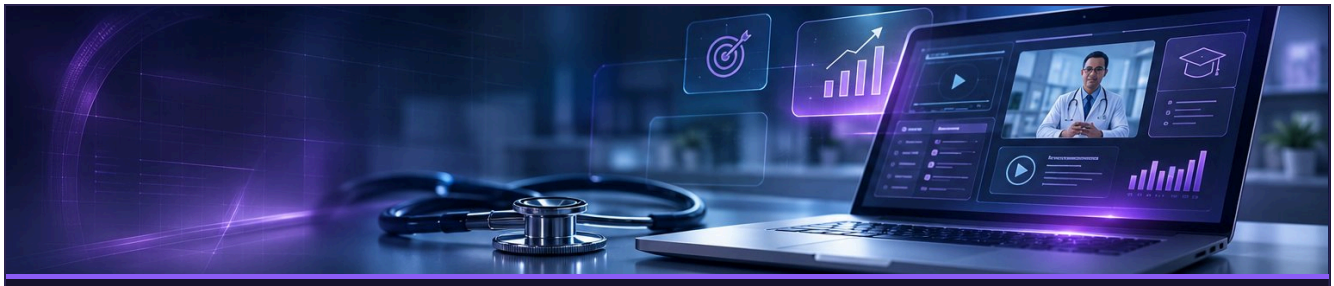

Support pages, usage guides and approved educational material.

POTENTIAL DIGITAL CHANNELS

- Direct-to-consumer e-commerce
- Professional / B2B enquiries
- Distributor & reseller networks
- Product education & support
- Country-specific product pages

IMPORTANT

Product eligibility, claims, labelling, advertising, import/export permissions and online sales rules vary by product and country. The client must provide substantiation and obtain the required regulatory and legal approvals before publication or sale.

05 MEDICAL EDUCATION & KNOWLEDGE PLATFORMS

Turn expertise into structured digital learning

Publish, manage and monetise professional or patient education — where permitted.

WHAT QC CAN BUILD

Learning Management System
01

Course catalogue, learner accounts, lessons, modules and progress tracking.

Subscription CMS
02

Gated articles, member-only resources, recurring plans and content libraries.

Payment gateway integration
03

Payment options supported by the selected provider and target market.

Automated marketing funnel
04

Landing pages, registrations, email or messaging sequences and conversion tracking.

Webinars & events
05

Registration pages, replay libraries and learning-resource downloads.

Instructor administration
06

Contributor profiles, course administration and reporting dashboards.

Video hosting
07

Hosted or approved third-party platform integration, subject to the chosen architecture.

Learner engagement
08

Progress reminders, learner notifications and community touchpoints.

POSSIBLE USE CASES

1. Specialist-led courses and workshops
2. Professional development for healthcare teams
3. Patient education and condition-awareness resources
4. Paid webinars, memberships and knowledge libraries

ACCREDITATION & CLINICAL CONTENT

Any certification, continuing education credit or professional qualification must be issued only through an appropriately authorised body. Medical education content should be reviewed and approved by qualified subject-matter professionals.

06 INTERNATIONAL PATIENT ENGAGEMENT

Connect with audiences beyond your home market

Communicate with international audiences and organise enquiries across selected countries.

QC CAN PROVIDE

International patient websites
01
Clear, multilingual digital destinations for overseas audiences.

Country-specific landing pages
02
Tailored information architecture and messaging for selected markets.

Multilingual campaigns
03
Localised content, creative and campaign setup.

WhatsApp enquiry automation
04
Initial enquiry capture, routing and approved responses.

Appointment coordination
05
Enquiry-to-appointment workflows integrated with clinic processes.

Treatment information portals
06
Structured service information, FAQs, doctor profiles and practical guidance.

International enquiry CRM
07
Lead records, source tracking, status and follow-up workflows.

Video consultations
08
Integration with suitable platforms where legally permitted and clinically appropriate.

A CONNECTED INTERNATIONAL ENQUIRY FLOW

1 **REACH** — Market-specific campaign → 2 **INFORM** — Localised landing page → 3 **CAPTURE** — Secure enquiry pathway → 4 **COORDINATE** — Provider team / CRM

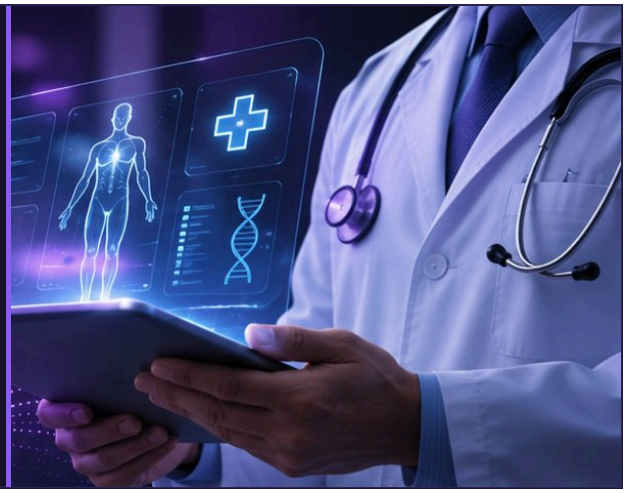

CROSS-BORDER CONSIDERATIONS

Cross-border healthcare promotion, patient referral, telemedicine, privacy and data transfers are subject to local laws and professional rules in both origin and destination markets. Each proposed market and workflow should be reviewed before launch.

07 AI-POWERED CONTENT & DIGITAL MARKETING

Create once. Adapt for more audiences.

A consistent content engine to communicate clearly across platforms and languages.

CONTENT & CAMPAIGN CAPABILITIES

Content strategy
01
Editorial calendars and campaign planning.

Video production
02
Doctor introductions, educational explainers and clinic overview films.

Short-form video
03
Assets for Instagram Reels, YouTube Shorts and other suitable channels.

AI localisation
04
AI-assisted editing, voice localisation, dubbing and lip-sync workflows.

Multilingual captions
05
Subtitles and adapted campaign creative.

SEO content
06
Content planning, on-page optimisation and technical recommendations.

Publishing & paid media
07
Social publishing support and paid campaign management.

Analytics & reporting
08
Lead capture, campaign tagging, analytics and performance reporting.

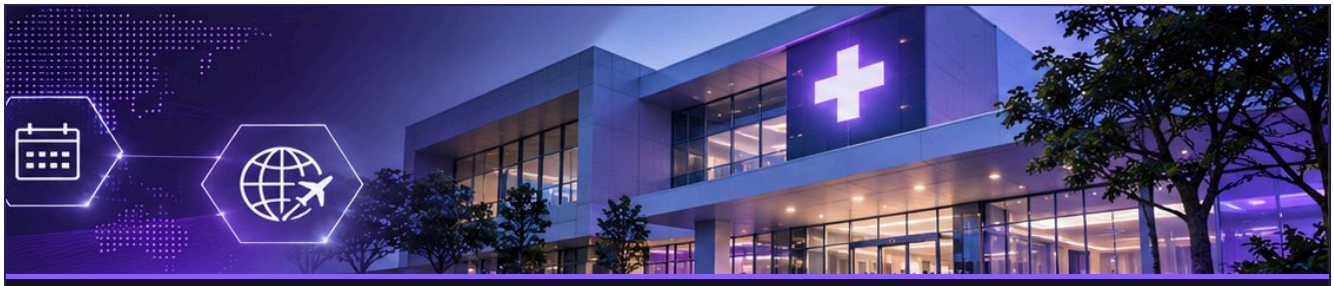

Brand consistency
09
Templates and guidelines that keep every asset on-brand.

A PRACTICAL CONTENT WORKFLOW

1. **PLAN** — Audience, goals, approved topics and markets
2. **CREATE** — Source video, article or campaign asset
3. **LOCALISE** — Language, captions and creative per audience
4. **PUBLISH** — Website and selected social channels
5. **MEASURE** — Reach, engagement, actions and enquiries

APPROVAL FIRST

All clinical messaging is published only after review and sign-off by the healthcare organisation, in every language version.

08 TECHNOLOGY, INTEGRATIONS & RESPONSIBLE DELIVERY

Built around your workflows

Connect the public-facing website with the systems that manage content, enquiries and operations.

POTENTIAL PLATFORM COMPONENTS

Custom websites & CMS
Structured content that your team can manage.

Appointment & enquiry forms
Contact pathways designed to minimise sensitive data.

CRM & messaging
CRM, email marketing and messaging integrations.

Payments & e-commerce
Payment gateways and e-commerce integrations.

LMS & memberships
Learning, membership and subscription systems.

Analytics & tracking
Conversion tracking and performance reporting.

Partner portals
Distributor portals and partner resource libraries.

Secure operations
Role-based access, secure hosting options, backups and maintenance.

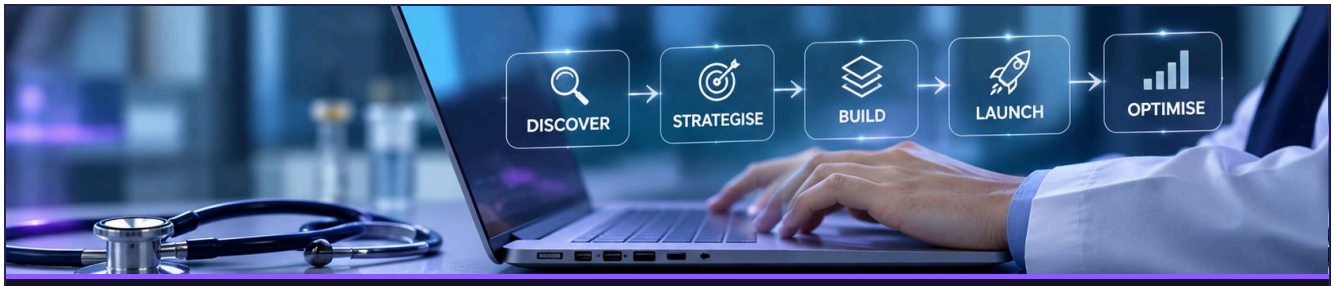

PRIVACY, SECURITY & HEALTHCARE COMPLIANCE

Healthcare data requires particular care. The platform scope should minimise collection of sensitive patient information and use appropriate security controls, access permissions, retention practices and vendor assessments.

Malaysia PDPA | India DPDP Act | EU GDPR | HIPAA (where applicable) | Medical advertising rules | Telemedicine regulations

SCOPE OF RESPONSIBILITY

QC designs and implements agreed technical workflows, but does not provide legal, regulatory, clinical or cybersecurity certification. The healthcare organisation remains responsible for compliance decisions, clinical accuracy, patient consent and approval of published claims. A qualified adviser should review the solution for each operating market.

09 HOW WE CAN WORK TOGETHER

Start with a focused project. Build towards growth.

Engagements can be scoped as a one-time build, a campaign, or an ongoing digital partnership.

OUR DELIVERY PROCESS

01	**DISCOVER**	Understand the organisation, audience, services, markets and business objectives.
02	**STRATEGISE**	Agree priorities, deliverables, platform requirements, content plan and success measures.
03	**BUILD**	Design and develop the website, CMS, integrations and creative assets.
04	**LAUNCH**	Test, review, obtain client approvals and publish the agreed digital experience.
05	**OPTIMISE**	Monitor agreed metrics, improve content and refine campaigns over time.

POSSIBLE ENGAGEMENT OPTIONS

ONE-TIME BUILD

Digital foundation

Website, professional profile, CMS and essential enquiry pathways.

CAMPAIGN

Growth campaign

Content production, SEO foundations, social media and paid campaign support.

PROJECT

Platform development

LMS, subscription portal, e-commerce, CRM or international patient enquiry system.

RETAINER

Ongoing partnership

Monthly content, marketing operations, analytics, optimisation and technical support.

NOT SURE WHERE TO START?

A short discovery conversation helps identify the right first project — whether that is a professional website, a patient enquiry pathway, a product store or an education platform — and how it can grow from there.

10 LET'S BUILD YOUR HEALTHCARE DIGITAL FUTURE

Your next step starts with a conversation

We begin by understanding your goals, then shape a practical digital roadmap.

A DISCOVERY CONVERSATION CAN COVER

- Your speciality, organisation or healthcare product.
- The audiences and countries you want to reach.
- Your current website, social channels and digital systems.
- Your priority: branding, patient enquiries, product sales, education or international growth.
- The right first project, timeline and measurable objectives.
